## Professional Summary

Highly motivated and results-oriented Full Stack Developer with one year of experience specializing in the MERN stack (MongoDB, Express.js, React.js, Node.js). Proven ability to develop and deploy user-friendly web applications. Actively expanding my Python backend development skills and eager to contribute to a challenging and innovative environment where I can further develop my expertise and deliver impactful solutions.

## Experience

### Full Stack Developer

Aug 2024 - Present

**REBB TECH**, Rockdale, NSW

- Implemented secure user authentication with JWT and robust password hashing using bcrypt.
- Maintained scalable and reliable backend services using Node.js, ensuring seamless data flow.
- Implemented CI/CD pipelines using Git, enhancing deployment speed and reducing errors.
- Integrated secure RESTful APIs with JWT, safeguarding data and improving user trust.
- Managed and optimized MongoDB databases, leading to enhanced application performance and reduced latency.

### Assistant Site Manager

Jul 2020 - Feb 2024

**Coles Express**, Bathurst, NSW

- Provided proactive customer service, addressing inquiries and resolving issues to exceed customer expectations.
- Managed inventory across multiple site locations, minimizing stockouts and ensuring timely replenishment.
- Planned and coordinated staff shifts to optimize store operations and maximize efficiency.
- Provided management with insightful reports on stock, staff, and operations.
- Ensured compliance with quality and hygiene standards for all products.

## Education

### MERN Stack Development Bootcamp

Feb 2024 - Aug 2024
